EDUCATION

Government College of Engineering and Research Avasari, Khurd
Bachelor of Engineering in Computer Engineering
Government Polytechnic, Nashik
Diploma in Automobile Engineering

Expected July 2026
CGPA: 7.6/10 till 3rd Year
July 2023
Score: 87 Percentile

TECHNICAL SKILLS

- **Core:** C++, Python, SQL, JavaScript
- **Libraries & APIs:** React, REST APIs, JWT Authentication, n8n Workflows
- **Dev & Cloud:** Git, GitHub, Supabase, Vercel, Cloudflare, Cloudinary, MySQL, PostgreSQL

INTERNSHIP

CODTECH IT Solutions Pvt. Ltd.
Internship Trainee

Jan 2025 – Feb 2025
Remote

- Worked on **Privacy Parrot**, an AI assisted web privacy analysis prototype focused on cookies, tracking scripts, browser permissions, and website privacy behavior.
- Studied how websites collect user data and how privacy risks can be shown through a simple user interface.
- Learned browser privacy workflows including cookies, trackers, third party scripts, and local analysis of website behavior.

PROJECTS

CodeLM: Real-Time Collaborative AI Coding Platform | *Academic Capstone Team Project*

Aug 2025 – Present

- Developed an AI assisted collaborative coding platform focused on team workspaces, user roles, chat, and LLM assisted coding workflows.
- Contributed to product architecture, feature planning, and workflow design for AI agents inside collaborative development environments.
- Worked with Supabase based authentication and database flows for managing users, teams, and project access.

AIMogger: GenAI Blog Automation and AI Resource Platform | *AI Automation Platform*

Nov 2025 – Present

- Built an AI assisted platform for blog generation, AI tool discovery, resource curation, and structured publishing workflows.
- Designed automation flows for topic research, draft generation, content organization, and resource listing using LLM APIs and Supabase.
- Added workflow automation support using n8n, JWT authentication, Cloudinary media handling, and secure API based flows.

CERTIFICATIONS & PUBLICATIONS

- **Introduction to AI:** Google course certificate offered through Coursera, completed May 2026.
- **ISRO-IIRS Certification in Geodata Processing:** Completed online training on geospatial data processing using Python and ML.
- **Architectures for AI-Augmented Collaborative Development Environments:** Co-authored research paper on AI-integrated collaborative coding architectures, currently under review.

ACHIEVEMENTS & LEADERSHIP

- **Academic Rank:** Secured 2nd rank in final year Diploma in Automobile Engineering at Government Polytechnic Nashik.
- **Creator Growth & Leadership:** Grew a GenAI based Instagram page, [@animenature_ig](#), to 80K+ followers while leading content planning, workflow organization, and AI assisted publishing systems.
